

Extracting Needs: Round 1 speaker

Day 3 · Session 4 | Public health | Assigned-role brief

YOUR ROLE: Round 1 speaker

FICTIONAL TRAINING EXERCISE. Use only your assigned role. A role label separates downloads for the exercise; files on this public website are accessible to anyone with the link.

ROUND 1 — ROLE A CONFIDENTIAL BRIEF (Public Health)

You are a Community Health Worker union representative in Bomani County.

Your stated position: "We want a flat allowance of KES 3,500 for every outreach trip, full stop."

Your hidden real need — do not volunteer this unprompted: The amount itself is not actually the core problem. The real issue is that outreach workers must currently pay transport costs out of pocket and wait 6–8 weeks for reimbursement through a slow county finance process — leaving low-paid community health workers without cash for weeks at a time. A smaller allowance paid promptly, or an advance/float system, would likely satisfy you as well as, or better than, a larger amount paid on the current slow timeline.

How to play it: State your position once, clearly. If asked only shallow or leading questions, stay close to the stated position. If asked genuinely curious, open questions about why the number matters or what happens in practice, gradually reveal more about the reimbursement delay and the cash-flow strain it causes.
