

Higher Education Simulation Shared Facts

Day 4 Session 4 | Plenary B | Shared resource

Fictional training exercise. All institutions, disputes, mandates and figures are invented for learning.

Both teams in this sector read these facts. Each side also has its own separate confidential brief.

Also on the agenda: The promotion criteria. Promotion requires a stated number of continuous years in post, and the count restarts after a break in service. About forty-six per cent of academic staff are women, concentrated in the two grades below senior lecturer.

The employer: Riverside Technical University. About 14,200 students; 780 academic staff and 1,050 non-academic staff.

The union: The campus branch of an academic staff union, representing most academic staff.

The agreement: A promotion round approved two years ago. Promotions took effect on paper; the corresponding pay was applied several months late.

The dispute: Arrears of about KSh 94 million remain unpaid. Clearing them in one financial year would take about 6% of the recurrent budget.

The fiscal position: Recurrent budget is 61% exchequer allocation, 39% institutional revenue. Personnel costs are 73% of recurrent budget.

Complicating factor: A capital project is mid-delivery. Institutional revenue is largely committed to operations.

Today's meeting: Convened by the Vice-Chancellor's office after the union declined to sign off the staff establishment returns.
